Sanitizing the campus

3.4.3

Maintaining a clean and sanitised college campus is important in light of the COVID-19 epidemic, hence BRB College's campus was sanitised on October 04, 2021. In addition to assisting in the prevention of infectious disease transmission, an extensive sanitization plan fosters a sense of security and well-being among staff, instructors, and students. To ensure the health, safety, and wellbeing of students, teachers, and staff, college campuses must be kept clean and sanitised. Colleges can create a setting that reduces the risk of infectious diseases by implementing a thorough sanitization strategy that includes routine cleaning, improved disinfection, hand hygiene promotion, and effective communication. To sustain these sanitization procedures and give the health of the campus community first priority, the entire campus community must work together.
